Pupil Mental Health Guide

At Rickleton Primary School wellbeing is extremely important. The school council have worked very hard to create a 'Pupil Mental Health Guide'. This is a special toolkit that gives you some ideas of things you can do in school to ensure you feel happy, calm and ready to learn.

Having a 'good' mental health ensures you are healthy, safe and ready to learn new things. It allows you to feel, express and manage both positive and negative emotions.

There are lots of people in school who can support you with feeling happy and ready to learn. This booklet will show you who you can talk to and ways you can get help.

The school council are very happy to help if you have any questions or concerns.

Who can I talk to at school?

Mini Medics

At Rickleton we have a group of children who have trained to become 'Mental Health Mini Medics'. The Mini Medics have worked hard to understand what mental health is; how it can change throughout the day; what we can do ourselves to improve our mental health; signs when mental health isn't good; and how we could support others. The Mini Medics have created a toolkit, alongside Mrs K O'Connor, for you to use if you need any help.

Our brilliant Mini Medics even won a Young Achievers Award for the Young Mental Health Champion category!

Peer Mentors

We are very lucky to have Peer Mentors in school, who have various roles across school, giving their time to work with others. You can become a Peer Mentor when you are in Year 6 and can help younger children playing on the yard, support reading or even work as a librarian to make sure our library is pleasant and inviting. Our Peer Mentors are always on hand to resolve small problems, be a friendly face if you feel lonely or listen to your concerns. We were delighted in 2022 that our Peer Mentors received a Sunderland Young Achievers award in recognition of their work.

School Council

Our school council plays a vital part in the running of our school. The children meet regularly to discuss issues in school and to make suggestions for further action. The school council members meet with Miss Forsyth to review the things which happen in school and to see what improvements can be made to our school.

School Council Aims

The following aims were discussed and chosen by the school council.

- Give every pupil a voice.
 - To help ensure the school is attractive and appealing to the children, staff and visitors.
 - To be good role models showing kindness, helpfulness and to show respect to all.
 - Respectfully share the views of their class.
 - To help the school improve any school issues.
 - Make our learning environments the best they can be.
- Children and adults to be happy, have fun and be safe.
- Contribute to charity and organise whole school events.

If you have any worries or concerns, speak to your class school councillor for support.

School Council 2024- 2025

Zones of Regulation

At Rickleton we use the 'Zones of Regulation' to discuss our feelings. There is a display in each classroom and some displayed around school. Each coloured zone relates to a feeling and you can use this to tell a grown up how you are feeling. Once you are aware of how you feel, you can then use different calming strategies to make sure you are calm and ready to learn.

BLUE	GREEN	YELLOW	RED
			
How you might feel	How you might feel	How you might feel	How you might feel
Sick Sad Tired Bored Moving slowly	Happy Calm Feeling OK Focused Ready to Learn	Frustrated Worried Silly/Wiggly Excited Loss of some control	Mad/ Angry Mean Yelling/ Hitting Disgusted Out of Control
What might help you	What might help you	What might help you	What might help you
Talk to someone Stretch Take a brain break Stand Take a walk Close my eyes	Listen Learn Share your ideas with confidence Show kindness to others Be a good friend Show resilience	Talk to someone Count to 20 Take deep breaths Squeeze a stress ball Draw a picture Take a brain break Carry out a mindful activity	Stop what I am doing Take deep breaths Find and name 5 things (see, hear, touch) Ask for a break Find a safe space Ask for help Make sensible choices

5 Ways to Wellbeing

In school, we use the '5 Ways to Wellbeing' to support our physical and emotional health.

There are 5 simple steps that you can take to improve your mental health and wellbeing. Trying these things could help you feel more positive and able to get the most out of your life. The 5 Ways to Wellbeing include-

- Connecting with others
- Being physically active
- Learning new skills
- Giving to others
- Being in the present moment.

For more information on the '5 Ways to Wellbeing' speak to one of our Mini Medics.

Whole Class Sensory

At RPS, we take part in whole class sensory 3 times a day. This will take place first thing on a morning, after lunchtime and before you go home. Each session will have a different focus. Session 1 will focus on big movements, session 2 will focus on calming activities and the last session will focus on fine/gross motor skills. You will enjoy activities and such as dough disco, rainbow breathing and dancing. This will make sure you are ready to learn!

Sensory Room

We are very lucky to have a dedicated space in school for a sensory room. You can have sensory time planned into your day if it benefits your ability to regulate and focus, in order to be successful in school.

The photos below show some of the activities and sensory opportunities available in the space.

Outdoor Sensory Equipment

We are also very lucky to have some new outdoor sensory equipment. This is excellent if you prefer larger movements to regulate, whilst enjoying the fresh air.

Self and Co-regulation Techniques

Key Reminders

Who can I talk to at school?

Who can I go to for help? Designated Safeguarding Lead:

Top Tips

Here are some top tips of things you could do in your classroom to feel happy, regulated and ready to learn ...

In your classroom you will find a worry monster. If you have any worries, give them to the worry monster and he will gobble them up!

If you are feeling stressed or worried, try having a drink of water. This will keep you cool and hydrated.

Your teacher will show you some different self-regulation techniques you can use when you feel stressed or worried. Have you tried thumb rolls or rainbow breathing?

At breaktime, you could have a run around, play some games with your friends or use the outdoor play equipment. Your body releases endorphins which make you feel happy and ready to learn.

Speak to your teacher if you have any concerns. All staff wearing an orange lanyard are here to keep you safe.

Keep yourself safe.
